

MEASURE-A-BONE

Bones are hard and strong.

Some are short and some are long.

Bones help you sit, jump, and stand.

Let's measure each one, starting with the hand!

DIRECTIONS:

pick a bone and guess it's name and where it fits in your body. Use a ruler or snap cubes to measure it.

FOLLOW UP QUESTIONS:

Is it a long or short bone? Does this bone have a job? What would happen if you didn't have this bone? How does it help you?
