

Speedy Skeleton

These bones make your body complete,
From a head on top and the feet beneath.

Each strong bone has a special job,

Helping you stand, jump, and bob.

But this silly skeleton got mixed around,

Can you help fix him right here on the ground?

Directions:

Work alone or with a teammate to correctly assemble the skeleton. When you're finished, raise your hands and shout, "Speedy Skeleton!"

Follow Up Questions:

Was it hard to put your skeleton back together? Why or why not? Why do you think we have short bones and long bones? Why are bones important?
